

# feature films

In addition to current blockbuster hits, Continental is proud to present a selection of popular films from the past two decades. Please refer to the listings below to find out what film is playing on your flight.

The movie editing standards used by most global airlines are provided by the film studios. While the majority of our programming is edited for content, R-rated programming (including airline edited versions) will not be shown on aircraft with overhead screens. Our goal is to provide quality inflight entertainment appealing to a general audience.
